This document provides you with key investor information about this Sub-Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

AIA INVESTMENT FUNDS – AIA ASIA (EX JAPAN) EQUITY FUND – CLASS Z USD

A share class of AIA ASIA (EX JAPAN) EQUITY FUND

A Sub-Fund of the AIA Investment Funds, the “UCITS”

ISIN code: (A) LU1982191691

This UCITS has appointed FundRock Management Company S.A. as its Management Company

Objectives and investment policy

The Sub-Fund aims to generate long-term total returns through a portfolio of equities and equity-related securities issued primarily by Asian companies. In order to achieve its investment objective, the Sub-Fund will invest primarily, i.e. at least 50% of the Sub-Fund's Net Asset Value, in equity securities and equity-related securities issued by companies either (i) incorporated in the Asia (ex-Japan) region, (ii) listed, traded or quoted on the stock exchanges in the Asia (ex-Japan) region or (iii) have most of their assets and/or activities located in the Asia (ex-Japan) region. The Sub-Fund will invest in companies it believes to have above average earnings growth potential compared to other companies or in companies it believes are undervalued compared to their perceived worth. The Investment Manager uses a bottom-up approach to buying and selling investments for the Sub-Fund. The Sub-Fund will invest primarily in listed equity securities and equity-related securities including, but not limited to, common shares, preference shares, warrants, rights issues and depositary receipts (American Depositary Receipts (ADRs) and Global Depositary Receipts (GDRs)). The Sub-Fund may also invest on an ancillary basis in debt securities convertible into common shares, issued by the same issuers as well as eligible Real Estate Investment Trusts (REITs) investing in Asia (ex-Japan). The Sub-Fund may use financial derivative instruments including OTC derivatives for hedging and efficient portfolio management purposes, including, but not limited to, options, swaps, forwards, futures and contracts for difference (CFDs). The eligible markets for the Sub-Fund include, but are not limited to, Other Regulated Markets in the Asia (ex Japan) region. The Sub-Fund may invest in China A-Shares in the People's Republic of China (“PRC”) using Stock Connect. When using Stock Connect, the Sub-Fund will invest in China A-Shares listed on the SSE and the SZSE.

Total return swaps may be used for efficient portfolio management, including to gain exposure to one or more eligible financial indices. The notional amount of such total return swaps may represent up to a maximum of 10% of the Net Asset

Value of the Sub-Fund. The Sub-Fund may, when the size of the portfolio will be sufficient, have recourse to securities lending for the purposes of efficient portfolio management. In particular, securities lending may be used to generate additional capital or income or for reducing its costs or risks. The principal amount of the Sub-Fund's assets that can be subject to securities lending transactions may represent up to a maximum of 50% of the Net Asset Value of the Sub-Fund. The Sub-Fund may also retain amounts in cash or cash equivalents including investments in money market funds if it is considered appropriate to achieve the investment objective, including, but not limited to, during portfolio rebalancing. The Sub-Fund is not permitted to invest in aggregate more than 10% of its Net Asset Value in shares or units of UCITS or other UCI. The Sub-Fund may invest in equity securities and equity-related securities of companies of any market capitalisation and of any industry or sector.

The Sub-Fund is actively managed without reference to any benchmark. The Investment Manager will therefore not track any index and/or have any constraints in relation to the allocation of the portfolio, based on the change in the composition of any index. Should investors in the Sub-Fund wish to measure the performance of the Sub-Fund for comparison purposes, then the Investment Manager would suggest using the MSCI AC Asia ex Japan.

Your shares will be non-distributing. Income from investments in the Sub-Fund will be re-invested and therefore rolled up into the value of your shares.

The Sub-Fund currency is USD. This Share Class is in USD.

You can buy and sell your shares daily. The minimum initial investment for this Share Class is USD 20,000,000 or currency equivalent.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within the short-term.

Risk and reward profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.

The risk and reward category shown is not guaranteed and may change over time.

The lowest category does not mean a risk free investment.

The Sub-Fund is rated 6 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Sub-Fund's investments or expose the Sub-Fund to losses.

Particular risks not adequately captured by the risk indicator include:

- **Emerging markets** may face more economic, political or structural challenges than developed countries. This may mean your money is at greater risk. Other factors include greater "Liquidity Risk", restrictions on investment or transfer of assets and failed/delayed delivery of securities or payments to the Sub-Fund.
- **Foreign Exchange and Currency Risk:** The Sub-Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- **Equity risk** can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.

- **CAAP, Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk:** The Sub-Fund may invest in China 'A' shares either via China-A Shares Access Products (CAAPs) and/or via the Shanghai-Hong Kong Stock Connect and/or via the Shenzhen-Hong Kong Stock Connect which may involve clearing and settlement, regulatory, operational and counterparty risks.
- **Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Sub-Fund to financial loss.
- **Derivatives Instruments:** Derivatives and other financial techniques used substantially to obtain, increase or reduce exposure to assets may be difficult to value, may generate leverage, and may not yield the anticipated results. All of this could be detrimental to the performance of the Sub-Fund.
- **Hedging risk:** The currency hedging used to minimise the effect of currency fluctuations may not always be successful. Investors may have exposure to currencies other than the currency of their shares .
- **Risks associated with Depositary Receipts:** ADRs and GDRs do not always perform in line with the underlying security and there is no guarantee that a similar outcome will be achieved to that if it were possible to hold the securities directly. In the event of the suspension or closure of a market(s) on which the underlying securities are traded, there is a risk that the value of the ADR/GDR will not closely reflect the value of the relevant underlying securities. Additionally, there may be some circumstances where the Investment Manager cannot, or it is not appropriate to, invest in an ADR or GDR, or the characteristics of the ADR or GDR do not exactly reflect the underlying security.
