AIA INVESTMENT FUNDS – AIA NEW MULTINATIONALS FUND – CLASS Z USD

A share class of AIA NEW MULTINATIONALS FUND

A Sub-Fund of the AIA Investment Funds, the “UCITS”

ISIN code: (A) LU1982193804

This UCITS has appointed FundRock Management Company S.A. as its Management Company

Objectives and investment policy

The Sub-Fund aims to generate long-term total returns through a concentrated portfolio of global equities and equity-related securities.

•In order to achieve its investment objective, the Sub-Fund will invest primarily, i.e. at least 50% of the Sub-Fund's Net Asset Value, in equity securities and equity-related securities issued by companies globally with a bias towards large cap companies.

•The Sub-Fund will invest in equity, such as shares, preferred stocks, and other securities with equity characteristics, comprising listed as well as over-the-counter, depository receipts such as American Depository Receipts (ADRs), Global Depository Receipts (GDRs) and European Depository Receipts (EDRs), rights, warrants, units of Real Estate Investment Trusts (REITs), either directly or indirectly through financial derivative instruments.

•The Sub-Fund may also invest in Initial Public Offerings (IPOs) and secondary offerings.

•The Sub-Fund may invest in market access products (comprising warrants on equities, options on equities and equity swaps) for securities issued by developed and emerging market companies.

•The Sub-Fund may also hold securities issued pursuant to Rule 144A and/or Regulation S securities of the U.S. Securities and Exchange Commission. Regulation S securities are those offered outside the United States of America without registration under the United States Securities Act of 1933 (as amended).

•The Sub-Fund will be diversified by industry and country, and the portfolio will be designed to ensure high liquidity with a relatively lower turnover.

•The Sub-Fund will generally invest in developed countries, and may invest up to 20% of its net assets in countries, which are considered to be emerging markets or frontier markets.

•The Sub-Fund may also make limited investments in securities traded on markets of the Russian Federation and invest up to 10% of its net assets in China A-Shares traded via Stock Connect.

•The Sub-Investment Manager will adopt a long-term investment horizon and select companies based on compelling fundamental merits and attractive management stewardship profile.

•The Sub-Fund will not be subject to any geographic, industry or sector restrictions.

•The Sub-Fund may use financial derivative instruments, including OTC derivatives for hedging and efficient portfolio management purposes, including, but not limited to, equity index futures, rights, warrants, swaps, options, currency derivatives and other UCITS eligible derivatives. Total return swaps may be used for efficient portfolio management, including to gain exposure to one or more eligible financial indices. The notional amount of such total return swaps may represent up to a maximum of 10% of the Net Asset Value of the Sub-Fund.

•The Sub-Fund may also retain amounts in cash or cash equivalents including investments in money market funds if it is considered appropriate to achieve the investment objective, including, but not limited to, during portfolio rebalancing.

•The Sub-Fund is not permitted to invest in aggregate more than 10% of its Net Asset Value in shares or units of UCITS or other UCI.

•The Sub-Fund is actively managed. The Investment Manager will therefore not track any index and/or have any constraints in relation to the allocation of the portfolio, based on the change in the composition of any index. Should investors in the Sub-Fund wish to measure the performance of the Sub-Fund for comparison purposes, then the Investment Manager would suggest using the MSCI AC World Index.

Your shares will be non-distributing. Income from investments in the Sub-Fund will be re-invested and therefore rolled up into the value of your shares.

The Sub-Fund currency is USD. This Share Class is in USD.

You can buy and sell your shares daily. The minimum initial investment for this Share Class is USD 10,000,000 or currency equivalent.

Recommendation: The Sub-Fund is intended as a long term investment. Investors should consider their own personal circumstances and seek additional advice from their financial adviser or other professional adviser on their risk tolerance and investment horizon before investing in the Sub-Fund.

Risk and reward profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.

The risk and reward category shown is not guaranteed and may change over time.

The lowest category does not mean a risk free investment.

The Sub-Fund is rated 6 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Sub-Fund's investments or expose the Sub-Fund to losses.

Particular risks not adequately captured by the risk indicator include:

- **Emerging markets** may face more economic, political or structural challenges than developed countries. This may mean your money is at greater risk. Other factors include greater "Liquidity Risk", restrictions on investment or transfer of assets and failed/delayed delivery of securities or payments to the Sub-Fund.
- **Foreign Exchange and Currency Risk:** The Sub-Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
- **Equity risk** can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- **CAAP, Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk:** The Sub-Fund may invest in China 'A' shares either via China-A Shares Access Products (CAAPs) and/or via the Shanghai-Hong Kong Stock Connect and/or via the Shenzhen-Hong Kong Stock Connect which may involve clearing and settlement, regulatory, operational and counterparty risks.

■ **Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Sub-Fund to financial loss.

■ **Derivatives Instruments:** Derivatives and other financial techniques used substantially to obtain, increase or reduce exposure to assets may be difficult to value, may generate leverage, and may not yield the anticipated results. All of this could be detrimental to the performance of the Sub-Fund.

■ **Hedging risk:** The currency hedging used to minimise the effect of currency fluctuations may not always be successful. Investors may have exposure to currencies other than the currency of their shares .

■ **Market risk:** is understood as the risk of loss for a Sub-Fund resulting from fluctuation in the market value of positions in its portfolio attributable to changes in market variables, such as general economic conditions, interest rates, foreign exchange rates, or the creditworthiness of the issuer of a financial instrument.

■ **Risks associated with Depository Receipts:** ADRs and GDRs do not always perform in line with the underlying security and there is no guarantee that a similar outcome will be achieved to that if it were possible to hold the securities directly. In the event of the suspension or closure of a market(s) on which the underlying securities are traded, there is a risk that the value of the ADR/GDR will not closely reflect the value of the relevant underlying securities. Additionally, there may be some circumstances where the Investment Manager cannot, or it is not appropriate to, invest in an ADR or GDR, or the characteristics of the ADR or GDR do not exactly reflect the underlying security.
