AIA INVESTMENT FUNDS – AIA Sustainable Multi Thematic Fund – CLASS Z USD

A Share Class of AIA Sustainable Multi Thematic Fund

A Sub-Fund of AIA Investment Fund, the “UCITS”

ISIN code: LU2517867391

This UCITS has appointed FundRock Management Company S.A. as its Management Company

Objectives and investment Policy

The Sub-Fund's sustainable investment objective is to advance the United Nations Sustainable Development Goals (“UN SDGs”) by investing indirectly, through investments in other UCITS funds or sub-funds, in companies whose business models and operational practices are aligned with targets defined by the seventeen (17) UN SDGs on a multi thematic basis. In addition to pursuing the sustainable investment objective, the Sub-fund at the same time aims to provide long term capital growth. The sub-fund qualifies as an Article 9 financial product under SFDR which will be implemented through a fund-of-funds approach, i.e. investments in units or shares of UCITS funds or sub-funds, themselves qualifying as having a sustainable investment objective, selected by the Investment Manager and managed by the Sub-Investment Manager (the “Underlying Funds”). The list of possible Underlying Funds comprise a series of sub-funds from the UCITS platform, namely Robeco Capital Growth Funds, promoted by the Sub-Investment Manager, In particular, the following Underlying Funds:

- RobecoSAM Circular Economy Equities
- RobecoSAM Smart Energy Equities
- RobecoSAM Smart Materials Equities
- RobecoSAM Smart Mobility Equities
- RobecoSAM Sustainable Healthy Living Equities
- RobecoSAM Sustainable Water Equities. For further information on the ESG policy please refer to the Fund prospectus.

The Sub-fund may make use of derivatives for hedging and liquidity management. This includes the usage of derivatives to manage currency and market exposures in a cost-effective manner. The Sub-Fund will not enter into (i) repurchase or reverse repurchase agreements, (ii) securities or commodities lending and securities or commodities borrowings, (iii) buy/sell-back transactions or sell/buy-back transactions, (iv) margin lending transactions and (v) total return swaps. The Sub-Fund may also retain amounts in cash or cash equivalents. The Sub-Fund may hold ancillary liquid assets. On a temporary basis, the Sub-Fund may, in order to take measures to

mitigate risks relative to such exceptional market conditions in the best interests of the investors, hold ancillary liquid assets up to 100% of its Net Asset Value. In order to (i) achieve its investment goals, (ii) for treasury purposes, and/or (ii) in case of unfavourable market conditions, the Sub-Fund may hold cash equivalent (i.e., bank deposits excluding bank deposits at sight, money market instruments or money market funds) pursuant to the applicable investment restrictions. The Underlying Funds may as a principle not invest in securities from an issuer in the fossil fuels (thermal coal, oil sands and Arctic drilling), tobacco industry or firms involved in the production of controversial weapons. However, certain issuers deriving a certain percentage of their revenue from the production and/or retail sales of products and/or services linked to, or generally from, the relevant sector, as these percentages may be determined by the Sub-Investment Manager based on their own exclusion policy, may be invested in by the relevant Underlying Fund.

The Sub-Fund is actively managed. The Investment Manager will therefore not track any index and/or have any constraints in relation to the allocation of the portfolio, based on the change in the composition of any index. Should investors in the Sub-Fund wish to measure the performance of the Sub-Fund for comparison purposes, then the Investment Manager would suggest using the MSCI World Index (Net Return) or such other benchmark.

Your shares will be non-distributing. Income from investments in the Sub-Fund will be re-invested and therefore rolled up into the value of your shares.

The Sub-Fund currency is USD.

This Share Class is in USD. You can buy and sell your shares daily. The minimum initial investment for this Share Class is USD 10,000,000 or currency equivalent.

Recommendation: The Sub-Fund is intended as a long term investment. Investors should consider their own personal circumstances and seek additional advice from their financial adviser or other professional adviser on their risk tolerance and investment horizon before investing in the Sub-Fund.

Risk and reward profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.

The risk and reward category shown is not guaranteed and may change over time.

The lowest category does not mean a risk free investment.

The Sub-Fund is rated 6 due to the nature of its investments which include the risks listed below. These factors may impact the value of the Sub-Fund's investments or expose the Sub-Fund to losses.

Particular risks not adequately captured by the risk indicator include:

- **Emerging markets:** may face more economic, political or structural challenges than developed countries. This may mean your money is at greater risk. Other factors include greater “Liquidity Risk”, restrictions on investment or transfer of assets and failed/delayed delivery of securities or payments to the Sub-Fund.
- **Foreign Exchange and Currency Risk:** The Sub-Fund invests in other

currencies. Changes in exchange rates will therefore affect the value of the investment.

- **Equity risk:** can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.

- **Liquidity Risk:** In difficult market conditions, the Sub-Fund may not be able to sell a security for full value or at all. This could affect performance and could cause the Sub-Fund to defer or suspend redemptions of its shares.

- **Hedging risk:** The currency hedging used to minimise the effect of currency fluctuations may not always be successful. Investors may have exposure to currencies other than the currency of their shares.

- **Foreign Exchange and Currency Risk:** The Sub-Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.

- **Sustainability Risk:** is principally linked to climate-related events resulting from climate change (physical risks) or to the society's response to climate change (transition risks), which may result in unanticipated losses that could affect a Sub-Fund's investments and financial condition. Social events (e.g., inequality, inclusiveness, labour relations, investment in human capital, accident prevention, changing customer behavior, etc.) or governance shortcomings (e.g., recurrent significant breach of international agreements, bribery issues, products quality and safety, selling practices, etc.) may also translate into Sustainability Risks.

Charges

One-off charges taken before or after you invest

Entry charge Up to 5.00%

Exit charge Up to 1.00%

Charges taken from the UCITS over a year

Ongoing charges 0.22%

Charges taken from the UCITS under certain specific conditions
